SIX-MONTHLY INDEXES TO SCIENCE ABSTRACTS

Cumulative indexes to Science Abstracts are published twice a year covering the period January-June and July-December. They comprise author and subject indexes and some specialised or 'small' indexes. For Physics Abstracts and Electrical & Electronics Abstracts the Author Index and Subject Index are published as separate volumes. In this case the Small Indexes are included in the Author Index volume.

Author index

This lists in alphabetical order all authors of papers abstracted in the abstracts journal during the six months covered by the index, together with the title of the paper. Where there are co-authors of a paper the title of the paper is given only under the name of the first author. The serial number of the paper in the abstracts journal is in the form 8-12345, ie 1978—abstract no. 12345.

'Small' indexes

These are specialised indexes which allow the user to find quickly particular types of information which might be difficult to find using the subject or author indexes.

Bibliography index

In this index reference is made to articles which contain a significant list of references or bibliography on the subjects listed.

Book index

This gives details of books received and abstracted by the abstracts journal.

Conference index

This index lists conferences for which published proceedings have been received and abstracted. Reference is given to the individual papers and their serial numbers in the abstracts journal.

Corporate author index

This is an index to those items where a corporate organisation rather than an individual person is the agent primarily responsible for the publication. Such publications typically include reports of industrial firms or of government departments or research establishments. This index replaces the previous Report and Patent assignee indexes.

Science Abstracts Series A

January-June 1978

Author Index

inspec
The Institution of
Electrical Engineers

Physics Abstracts is published twice monthly by the Institution of Electrical Engineers. Twice-yearly subject and author indexes covering the period January-June and July-December are included in the subscription. Printed by G. A. Pindar & Son Ltd., Scarborough, N. Yorkshire, England. Second class postage paid at Piscataway, NJ 08854 USA.

Errata

Physics Abstracts

Entry 37673 of 16th May 1977, publisher's name should read Reidel.

Entries 71687, 71688, 71704, 71661, 71640, 71662 and 71663 of 17th October 1977, journal number should read 260 *not* 257.

Entries 74815, 78173, 78174, 78432, 78729, 78819 and 78838 of 1st November 1977, journal date should read 1976.

Entry 16139 of 15th February 1978, editor's name should read R.H. Golde

Entries 23610, 21151, 23170-2, 23611-12 and 23620, conference title should read Proceedings of the Symposium on Dielectric Thin Films on Semiconductor Devices, held Princeton, NJ, USA, 4th May 1977.
